PROFILE INFO

AI | Computer Vision & Immersive Technologies Engineer with 8+ years of experience in Computer Vision, Spatial Computing, Medical Imaging, Deep Learning, Generative AI, and Edge AI systems. Experienced in designing and deploying medical image analysis solutions, object detection, image segmentation, OCR pipelines, multimodal AI, and healthcare analytics using PyTorch, TensorFlow, OpenCV, MONAI, YOLO, and Transformers.

EDUCATION

University of engineering and technology, Lahore
(PhD Computer Science)
2025- Present

University of engineering and technology, Lahore
(MS Computer Science)
2019- 2022

COMSATS Institute of Information Technology
(BS Computer Science)
2014- 2018

Board of intermediate and secondary education, Faisalabad (Intermediate)
2010- 2012

Board of intermediate and secondary education, Faisalabad (Matriculation)
2008- 2010

WORK EXPERIENCE

Senior AI Consultant | NCAI – UET Lahore (Jan 2026 – Present)

- Leading healthcare AI and computer vision research projects.
- Designing medical image analysis pipelines for diagnostics and screening.
- Developing deep learning models for detection, classification, and segmentation.

Development Team Lead | HawkLogix (Aug 2023 – Present)

- Leading AI/CV engineers building healthcare and computer vision products.
- Architecting medical imaging, OCR, and multimodal AI solutions.
- Deploying AI models on cloud and edge environments.

Project Lead | ProjectZ Incorporated (Jan 2023 – Oct 2025)

- Managed the delivery of AI, Computer Vision, and Medical AI projects.
- Developed imaging analytics and intelligent healthcare automation solutions.

Senior IT Consultant | TatbeeqSoft (Sep 2022 – Dec 2023)

- Delivered edge AI and computer vision solutions using Jetson Nano and Raspberry Pi.
- Implemented object detection, tracking, and video analytics systems.

AI Engineer | YODO Dubai (Jan 2023 – Nov 2023)

- Developed computer vision and deep learning models for intelligent simulation systems.

Team Lead AI | Alfa Mohuha (Aug 2022 – Jun 2023)

- Led model training, optimization, deployment, and MLOps workflows for AI solutions.

AWARDS & CERTIFICATIONS

C# Workshop CITT Sahiwal
Authority (COMSATS)
EXPO 2014

SEO Certification
Authority (WAPEXP)

WEB Certification
Authority (E Rozgaar)

Huawei ICT Competition
Middle East
(Got 2nd postion)
Authority (Huawei)

Robotics Summer Camp Best Teacher
Award
Authority (KICS, UET Lahore)

Spatial Computing Workshop
Authority (UMT)
International Conference 2025

SOFT SKILLS

- Leadership & Team Building
- Strategic Problem Solving
- Cross-Functional Collaboration
- Effective Communication
- Agile Project Management
- Analytical & Critical Thinking
- Adaptability & Innovation
- Mentorship & Knowledge Transfer

LANGUAGES

- English (Fluent)
- Urdu (Fluent)

WORK EXPERIENCE

Research Officer | UET Lahore (Oct 2017 – Jul 2022)

- Conducted research in medical imaging, visual field classification, computer vision, and deep learning.
- Published and developed healthcare-focused AI prototypes.

CEO — EdTech Startup (PITB) | Punjab Information Technology Board
May 2023 – May 2024

AI & Computer Vision Projects

- Multi-Label Visual Field Classification using Deep Learning and Virtual Reality for glaucoma assessment.
- Signature Forgery Detection using CNN and Octave Convolution Networks.
- Volumetric DDoS Attack Detection using Transformer-based Deep Learning Models.
- Medical Intelligent Receptionist Agent (MIRA) with OCR, document understanding, and healthcare automation.
- PreventiAI – AI-powered medical document intelligence platform for imaging reports and lab records.
- Diabetes360 – Meal image analysis and personalized healthcare recommendation system.
- Retinal Disease Detection using CNNs and Vision Transformers.
- Brain Tumor MRI Classification and Segmentation using U-Net and Transformer architectures.
- Chest X-ray Disease Classification using Deep Learning.
- Real-time Human Detection, Face Tracking, and Avatar Interaction System.
- Face Recognition Attendance System using CCTV Cameras and Edge AI.
- YOLO-based Object Detection and Tracking Systems for industrial monitoring.

TECHNICAL SKILLS

Computer Vision
OpenCV · YOLO · Detectron2 · SAM · MediaPipe · Image Segmentation · Object Detection · Tracking

Medical Imaging: DICOM · MONAI · U-Net · Vision Transformers · MRI · CT · X-Ray Analysis

Languages & Technologies
Python · SQL · C# · C++ · JS · Bash · & Immersive, Web, Mobile Tech · Microservices

Cloud & MLOps
AWS · Azure ML · MLflow · Kubeflow · CI/CD Pipelines · FastAPI

Deep Learning
PyTorch · TensorFlow · Keras · CNNs · Transformers

DevOps & Tools
Docker · Kubernetes · GitHub · GitHub Actions
